

IT Support Knowledge Base – v1

Last Updated: 2025

Company: Acme Corp (generic placeholder — safe for demo use)

1. VPN Setup & Access

1.1 How to Set Up VPN (Mac)

1. Open **System Settings** → **Network** → **VPN**
2. Click **Add VPN Configuration**
3. Choose: **IKEv2**
4. Enter the following:
 - **Server Address:** vpn.acme.corp
 - **Remote ID:** acme-vpn
5. Enter your Acme username (without @acme.com)
6. Click **Connect**

If you cannot connect:

- Restart Wi-Fi
- Restart your laptop
- If you recently changed your password, restart your laptop once before reconnecting

1.2 How to Set Up VPN (Windows)

1. Go to **Settings** → **Network & Internet** → **VPN**
2. Click **Add VPN**
3. Enter:
 - **Provider:** “Windows (Built-In)”
 - **Connection Name:** Acme VPN
 - **Server Name:** vpn.acme.corp
 - **VPN Type:** IKEv2
4. Enter your Acme username and password
5. Save and click **Connect**

1.3 VPN Troubleshooting Checklist

Before contacting IT, verify:

- ✓ You are connected to the internet
- ✓ Your password is correct
- ✓ You have restarted your device
- ✓ You are not on airport Wi-Fi with restrictions

If the issue continues, IT may need additional details.

2. Password and Login Help

2.1 How to Reset Your Password

1. Go to: `password.acme.corp`
2. Click **Forgot Password**
3. Check your email for the reset link
4. Create a new password following these rules:

- ✓ At least 12 characters
- ✓ One uppercase letter
- ✓ One number
- ✓ One symbol

2.2 Account Locked Out

If you enter an incorrect password multiple times, your account may lock automatically.

- Wait **15 minutes** and try again
- If still locked, IT may need to reset access manually

3. Email & Outlook Support

3.1 How to Configure Outlook (Mac or Windows)

1. Open Microsoft Outlook
2. Sign in using:
`firstname.lastname@acme.com`
3. Approve MFA request if prompted

4. Outlook will automatically sync inbox and calendar

3.2 Outlook Common Fixes

Issue	Resolution
Email not syncing	Restart Outlook, verify internet, restart device
Outlook asking password repeatedly	Sign out and sign back in using Microsoft login window
Calendar not appearing	Ensure correct account profile is selected

4. Software Installation

4.1 How to Install Approved Applications

Employees can install software via the **Self-Service Portal**:

`software.acme.corp`

Available software includes:

- Microsoft Office
- Zoom
- Slack
- Chrome
- Visual Studio Code
- GitHub Desktop

Some apps require approval.

4.2 Software That Requires IT Approval

Application	Approval Needed
Jira	Manager approval
GitHub Organization Access	Engineering or DevOps approval
Figma Full License	Design Lead approval
Postman Pro	Manager approval

5. Access Request Policies

5.1 What Can You Request

Employees may request:

- Application access (Jira, GitHub, Figma, Salesforce)
- Shared drives and folder permissions
- VPN or remote access (if not automatically provisioned)

5.2 What Information You Must Provide

When requesting access, include:

- Application name
- Reason for access
- Temporary or permanent
- Your manager's name

6. Laptop / System Guidelines

6.1 Standard Laptop Specs

- **MacBook Pro (M-Series)** OR
- **Windows Business Laptop (ThinkPad / Surface)**
- Encrypted with company-managed security

6.2 Basic Troubleshooting Steps

Before reaching IT, try:

1. Restart device
2. Connect to stable internet
3. Ensure storage is not full
4. Run pending system updates

7. Support SLAs

Request Type	Expected Time
FAQ / General Questions	Immediate (AI-assisted)
Software installation	Same day
Access requests	24–48 hours
Hardware issues	48–72 hours

8. When to Contact IT

Contact IT only if:

- You attempted self-help steps
- The issue persists
- You cannot log in or access essential applications
- You need hardware replacement or policy exceptions
